Scenario

- **name:** Shipping 2.0 Mark shipments as fulfilled when picked up
- **instant:** false
- **zone:** us1.make.com

- **scenario settings:** roundtrips=1, maxErrors=3, autoCommit=true, autoCommitTriggerLast=true, sequential=false
-

Modules (execution order)

8 — monday>ListBoardItems (v1)

- **connection:** 44706 (Dad's Printing)
 - **boardId:** 8097949101 (Shipment Board :: public)
 - **limit:** 100
 - **newestFirst:** false
 - **showParentID:** false
 - **showSubitemsID:** false
 - **filterToGetColumnValues:**
 - `text82` (PO #)
 - `status_2` (Fulfilled)
 - `text654` (Tracking #)
 - `numbers_mkkp6cf` (Shipment ID)
 - **outputs referenced later:** `{{{8.id}}}`, `{{{8.mappable_column_values.status_2.text}}}`,
`{{{8.mappable_column_values.text654}}}`, `{{{8.mappable_column_values.numbers_mkkp6cf}}}`
-

4 — http>ActionSendData (v3) — “API Call to Check Status”

- **handleErrors:** true
- **useNewZLibDeCompress:** true
- **filter name:** If Ready For Fulfillment
- **filter condition:** `{{{8.mappable_column_values.status_2.text}}} == "Awaiting Courier"`
- **request:**
 - **method:** POST

- **url:** `https://api.netparcel.com/shipping_service`
- **contentType:** application/json
- **bodyType:** raw
- **gzip:** true
- **headers:**
 - `API_USERNAME: Dadsprinting`
 - `API_PASSWORD: 6nuahcfrh5dx`
- **data payload:**

```
{
  "order": {
    "order_id": "{{8.mappable_column_values.numbers_mkkr
p6cf}}",
    "tracking_number": "{{8.mappable_column_values.text
654}}"
  }
}
```

- **parseResponse:** true
- **followRedirect:** true
- **rejectUnauthorized:** true
- **onerror:** 6 builtin:Ignore
- **response fields referenced later:** `{{4.data.order.status.status_name}}`

5 — monday:ChangeMultipleColumnValues (v1)

- **connection:** 44706
- **boardId:** 8097949101 (Shipment Board :: public)
- **itemId:** `{{8.id}}`
- **create_labels_if_missing:** false

- **filter name:** If Picked Up
 - **filter conditions (two groups):**
 1. `{{4.data.order.status.status_name}} == "In Transit"`
 2. `{{4.data.order.status.status_name}} == "Delivered"`
 - **columnValuesToChange:**
 - **status_2 (Fulfilled):**
 - label: `Done`
 - selectType: `label2index`
 - settings JSON included (done_colors, color_mapping, labels, labels_positions_v2, labels_colors)
-
